SENIOR LIVING... LIFE TIME SOLUTIONS

At Atkinson & James we specialise in the creation of new interiors and the refurbishment of existing rooms and space. Our experience in all aspects of refurbishment means we can deliver an environment which minimises the institutional look but offers the safe, inviting appearance of a private house.

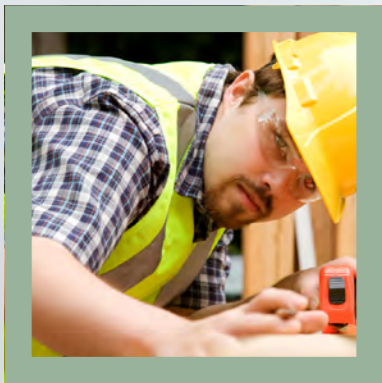

First impressions count, and for a family member walking into a care home for the first time, they need reassurance that their loved one is going to find the comfort and care they need.

They will be looking for high standards and signs of professionalism. Shabby décor, old furniture and tired rooms with an institutionalised appearance will diminish trust.

We aim to provide quality décor and furniture to create a caring environment. The right ambience will relax you, make you feel at home, as well as creating a great space for staff and relatives to be around residents.

UNDERSTANDING YOUR REQUIREMENTS

At Atkinson & James we understand exactly what is needed to provide a high quality fit out/refurbishment. We listen, understand, plan and develop every project to the finest detail. Understanding our clients' needs in conjunction with meticulous planning and craftsmanship forms the basis of our winning formula... and it's that formula that enables us to deliver the promise...

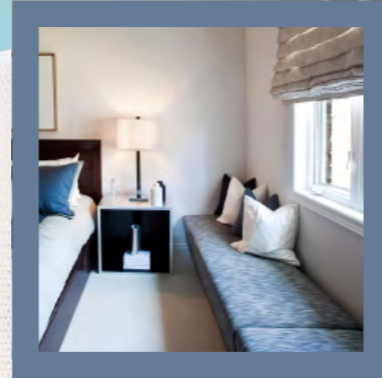

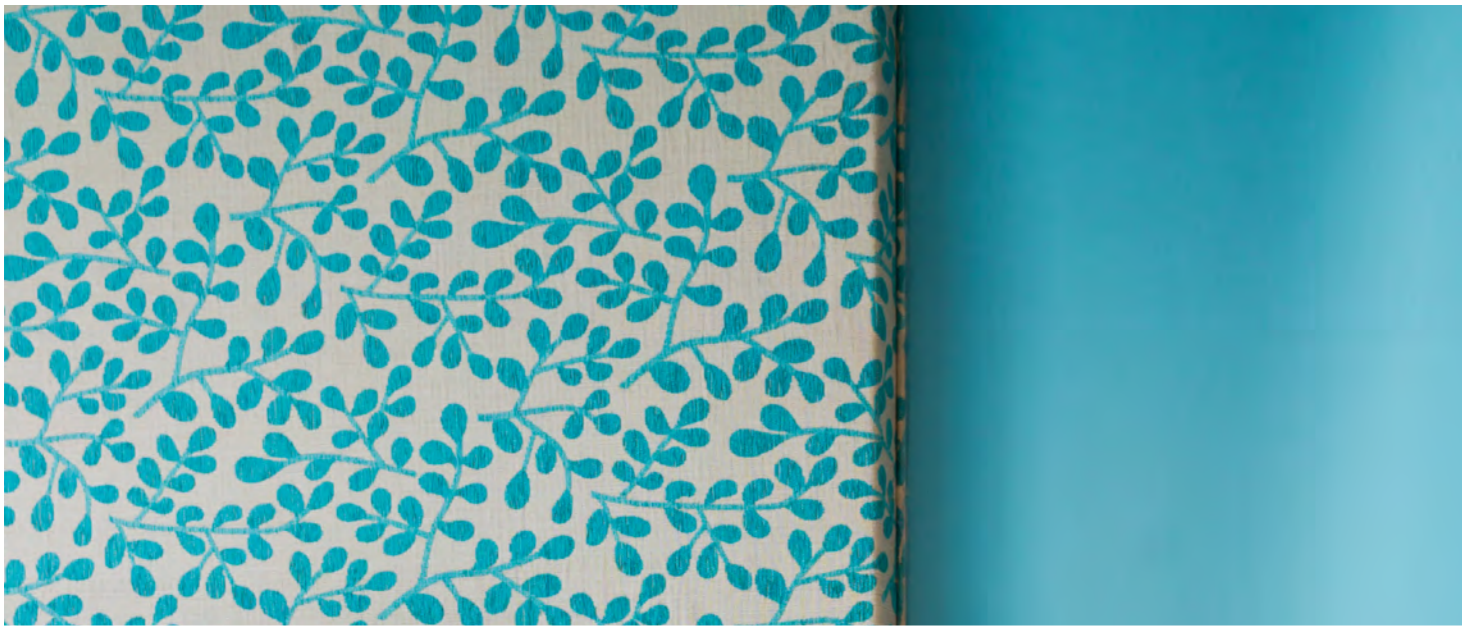

We can offer advice and solutions for every environment within any care home interior, always providing you with a vast choice of solutions but always bearing in mind budget restraints.

Every member of our team plays an active role in delivery of the project; we take great pride in producing the finished product that will stand the test of time.

We pride ourselves in offering a tailored service for each and every customer and project ensuring quality is assured and delivery dates are met at all times.

We provide a single point of contact to help streamline the whole process and to ensure the client brief and objectives are met consistently.

TRUSTING US EXPERIENCE COUNTS

You can trust us every time our highly skilled team work together to bring every project we undertake to completion, on time, every time and on budget.

We have vast experience in specialist refurbishment, which enables us to provide every client with our specialised 'Know how' throughout every facet, of every project, we inspire confidence.

This is another reason why our clients remain loyal trusting us to deliver and cope with demanding deadlines.

A worthwhile reputation can only be gained over time and our reputation is no exception.

We have earned the trust of clients through what we have achieved for them.

RESPECTING YOUR ENVIRONMENT

We fully understand the need for discretion and sensitivity during a refurbishment program. To disrupt residents is totally unacceptable and the utmost care is taken by all our staff to ensure 'peace and quiet' as far as is physically possible whenever.

Our fitters are all CRB checked have CSCS cards, wear company attire and have full PPE which makes them easily identifiable to residents and staff when on site.

EXPERIENCE IN ACTION

Through many years of experience working in 'live' environments, we always manage and co-ordinate the team so that disruption to the client, and their customers, is minimised and the project delivery maximised, to our best endeavours.

COMFORT...
SPECIALIST FURNITURE

We can source the latest collections of furniture meticulously designed for the elderly that have a recognizable aesthetic line for comfort and confidence.

A varied environment can provide choice, stimulation and enhance a person sense of self, while correct use of color, contrast and pattern can aid those with visual impairments, increasing confidence and independence.

We like to offer our customer the comfort and security of soft curvaceous ergonomic designs, aesthetically pleasing solutions with the cosy feeling of home, washable fabrics and impervious upholstery that ensure a nice fresh scent, quiet mechanical systems that don't disturb your peace.

We believe that everyone deserves to be comfortable; therefore we can help you choose the best options to suit your environment, whether it is a traditional piece or something with more of a contemporary feel.

We offer a unique quality package which allows us and you to create a perfectly comfortable environment with specialist hard and soft furnishing.
